

K-LOVE radio station encourages me every day. I listen to it all day long. I need this station to stay built up and have a christian worship connection throughout my day, I must have this in my stressful world. K-LOVE reaches out to my local community and ministers hope and encouragement where there might otherwise be none. If we lose K-LOVE locally, we will lose our encouragement, we will lose our only way of praise and worship on the radio, therefore; if we cannot afford to buy music we just can't hear it not to mention we will lose the ministry of those ministering to us on the station. Our community has enough negative effects in it, please don't take away one of the few positive things our community has.
